

**DIAMOND RIB 36** cladding roofing

**DESCRIPTION**

Delivering the ultimate in strength and coverage, DIAMOND RIB 36 offers a distinctive 1" fluted rib design. This profile is an exposed fastening steel panel that's ideal for both roof and cladding applications, 26 and 24 gauge provide a full 36" coverage, 29 gauge provides a 36" coverage (Wall Lap only).

COVERAGE: 36" | GAUGE(S): 29, 26 & 24

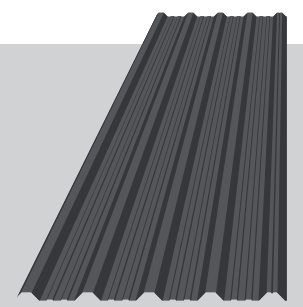

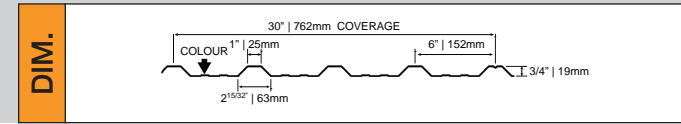

**DIAMOND RIB 30** cladding roofing

**DESCRIPTION**

A more traditional roofing and cladding profile, as a variation on the full 36" coverage Diamond Rib, DIAMOND RIB 30 still provides the same features and benefits you need for your application. Diamond Rib 30 is only available in selected colours.

COVERAGE: 30" | GAUGE(S): 29 & 26

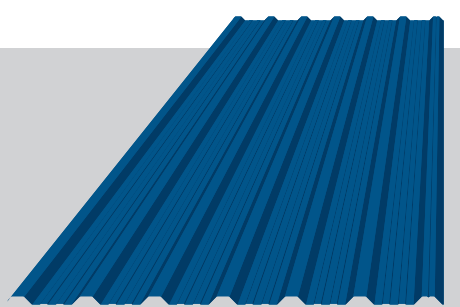

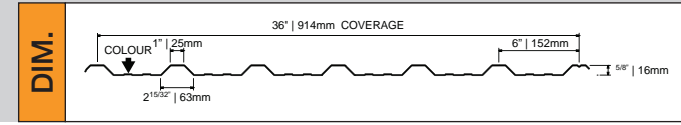

**MULTI DRAIN** cladding roofing

**DESCRIPTION**

Similar in aesthetics to Diamond Rib and Diamond Rib 30, but with a 5/8" rib height. MULTI DRAIN is useful in exterior agricultural, residential, and commercial roofing and siding applications, and can also be used in various interior ceiling and wall applications.

COVERAGE: 36" | GAUGE(S): 29 & 26

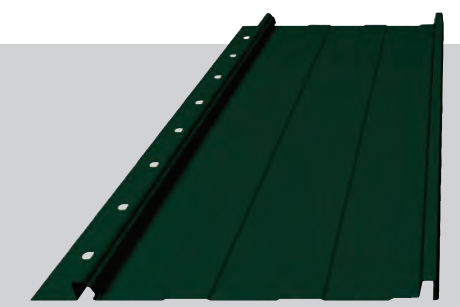

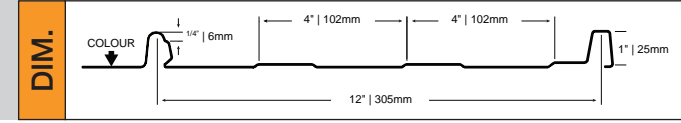

**SNAP LOK** roofing

**DESCRIPTION**

Unique to WESTMAN STEEL, SNAP LOK roofing delivers long-lasting performance when compared to traditional residential roofing alternatives. SNAP LOK delivers a contemporary roof profile that's visually appealing and cost effective. Ideal for homes and cottages, this profile is designed for extreme Canadian weather.

COVERAGE: 12" & 16" | GAUGE(S): 26 & 24

AGRICULTURAL RESIDENTIAL COMMERCIAL

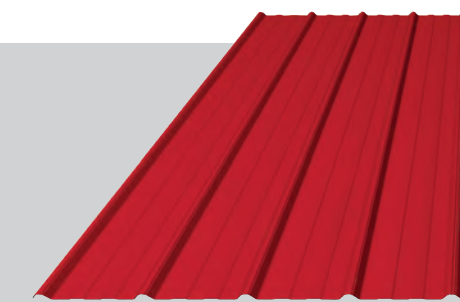

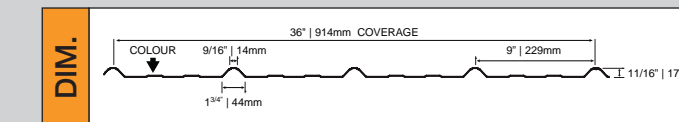

CLADDING & ROOFING PROFILES

**TOUGH RIB** cladding roofing

**DESCRIPTION**

Our most popular profile is also our toughest. TOUGH RIB is our strongest and most durable light gauge 36" coverage panel. It delivers the performance needed for agricultural and residential applications. Its traditional ribbed design also meets the architectural and aesthetic needs of commercial and institutional users.

COVERAGE: 36" | GAUGE(S): 29 & 26

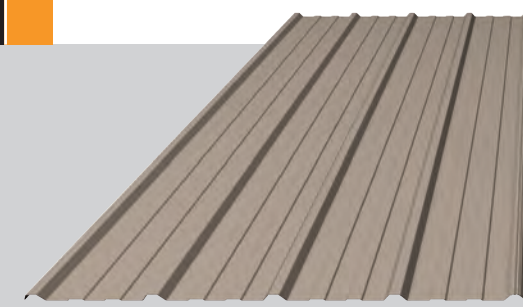

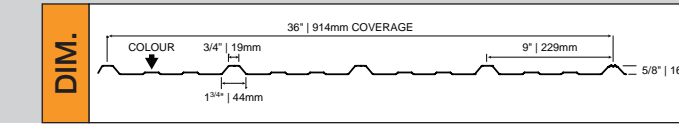

**936** cladding roofing

**DESCRIPTION**

The 936 profile is a tough and durable performer. The absence of the shoulder ribs delivers a flatter, more contemporary appearance. The versatile 936 profile achieves finer, architectural detailing; resulting in an aesthetically pleasing panel well suited to wall and interior liner applications.

COVERAGE: 36" | GAUGE(S): 29 & 26

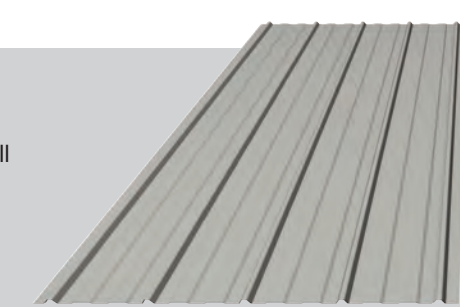

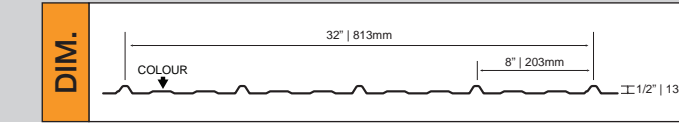

**TSM 32** cladding roofing

**DESCRIPTION**

The TSM 32 profile is an economical performer suitable for both roofing and wall cladding in agricultural, commercial and residential applications. This profile is recognized as the ideal choice for Quonsets.

COVERAGE: 32" | GAUGE(S): 29 & 26

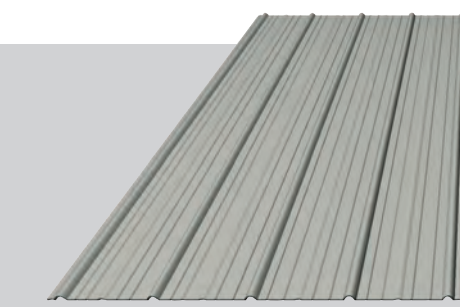

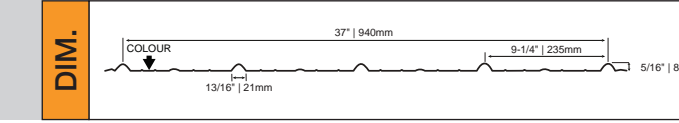

**RAINBOW RIB** cladding roofing

**DESCRIPTION**

The RAINBOW RIB profile is an economical performer suitable for both roofing and wall cladding in agricultural, commercial and residential applications. This profile is recognized as the ideal choice for Quonsets. RAINBOW RIB has our largest coverage to get projects completed quicker.

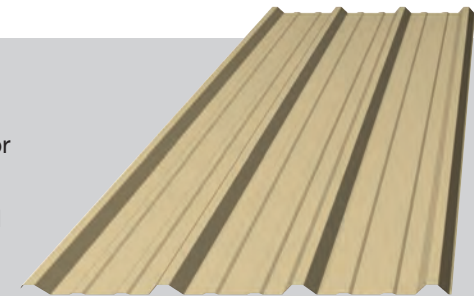

COVERAGE: 37" | GAUGE(S): 29

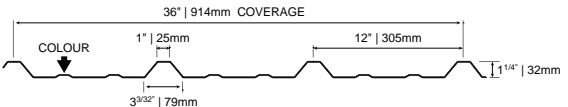

**AWR** cladding roofing

**DESCRIPTION**

AWR has become a standard within the Pre-Engineered industry and is used for both roof and wall cladding in commercial buildings. The AWR profile offers a modern, multi-ridged face and a rib height of 1 1/4" that results in an exceptional panel that is well suited for low slope roofs.

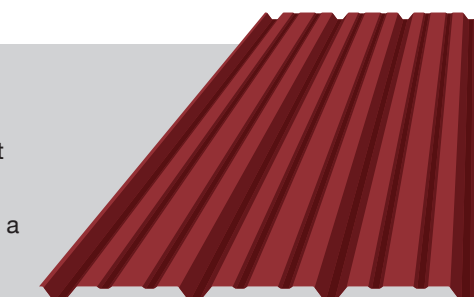

**COVERAGES:** 36" | **GAUGE(S):** 26 & 24

**DIM.** 

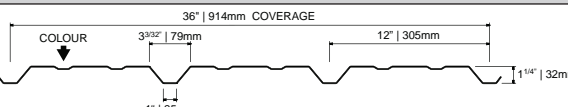

**WIDESPAN** cladding

**DESCRIPTION**

WIDESPAN offers similar characteristics to that of the AWR, with the added benefit of an expanded profile face. Its 1 1/4" rib depth offers different shadow lines and aesthetics for all your commercial and industrial wall applications, it is also a popular panel for both accent bands and facades.

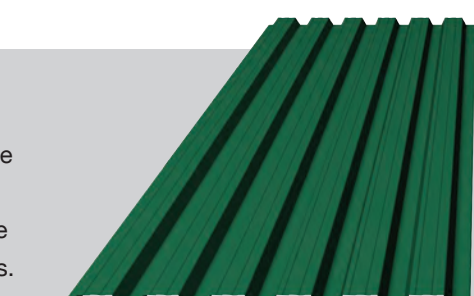

**COVERAGES:** 36" | **GAUGE(S):** 26 & 24

**DIM.** 

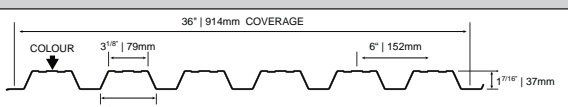

**ULTRA SPAN** cladding roofing

**DESCRIPTION**

Featuring unique, contemporary 6" flutes, ULTRA SPAN is the ultimate performance roof and wall cladding profile for commercial and industrial applications. Among our most versatile profiles, when inverted, ULTRA SPAN offers new creative possibilities and a different look to satisfy a variety of architectural requirements.

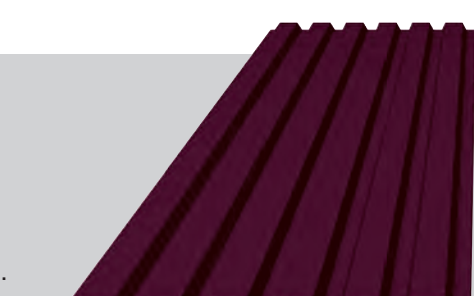

**COVERAGES:** 36" | **GAUGE(S):** 26, 24 & 22

**DIM.** 

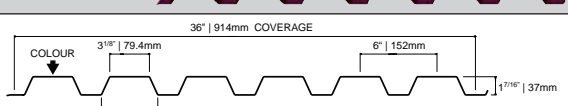

**ELITE RIB** cladding roofing

**DESCRIPTION**

ELITE RIB adds drama to any commercial building. This panel offers a wide (3 3/32") and deep (1 7/16") flat rib profile that makes a bold statement in any wall application. This profile is quickly installed due to its full 36" coverage. Many colours are available to complement a variety of architectural requirements.

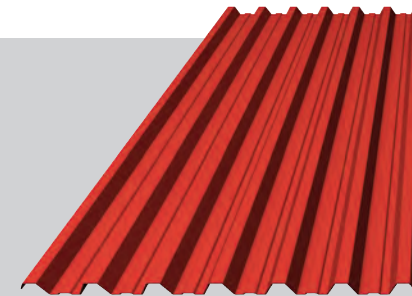

**COVERAGES:** 36" | **GAUGE(S):** 26, 24 & 22

**DIM.** 

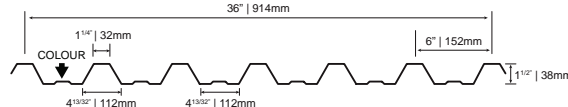

**DECK MATE** cladding roofing

**DESCRIPTION**

DECK MATE is one of the newer panels produced by WESTMAN STEEL. This profile offers aesthetically pleasing shadow lines complemented by superior strength and is designed for all types of commercial or industrial building applications.

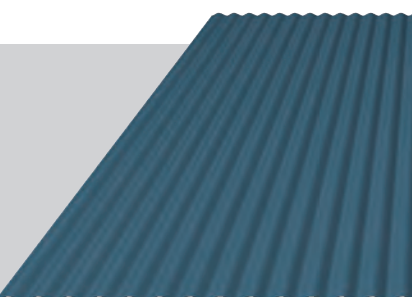

**COVERAGES:** 36" | **GAUGE(S):** 26, 24 & 22

**DIM.** 

**1/2" CORRUGATED** cladding roofing

**DESCRIPTION**

A very traditional profile, the 1/2" CORRUGATED profile offers continuous shadow lines for a very subtle textural appearance. A gentle, rolling profile, it is well suited for interior or exterior applications in commercial or industrial buildings, and can be easily applied over open framing or solid sheathing.

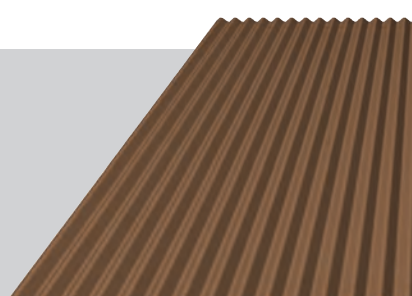

**COVERAGES:** 32 & 34 2/3" | **GAUGE(S):** 29 & 26

**DIM.** 

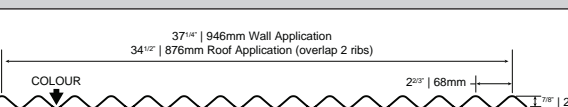

**7/8" CORRUGATED** cladding roofing

**DESCRIPTION**

Our 7/8" CORRUGATED is WESTMAN STEEL's most traditional profile, offering dramatic rolling 7/8" flutes with continuous shadow lines making it one of the strongest panels in the industry. This profile is suitable for both interior and exterior applications in commercial and residential buildings. It can easily be applied over open framing or solid sheathing.

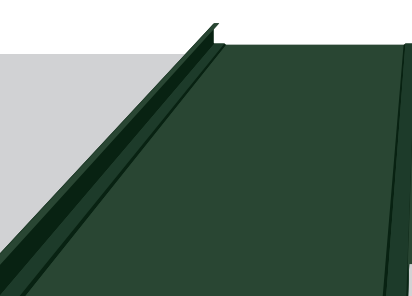

**COVERAGES:** 30", 32" & 37" | **GAUGE(S):** 29, 26 & 24

**DIM.** 

**2" MECHANICAL LOCK** roofing

**DESCRIPTION**

Generally referred to as a Standing Seam Roof (SSR) Panel, 2" MECHANICAL LOCK is a hand crimped, mechanically seamed profile available with a plain, striated, or pencil rib finish. Able to be used structurally, and utilizing a fixed or floating clip system for low slope applications, this profile will provide an aesthetically pleasing finish, and quality peace of mind protection for your roof. Slopes down to 3/4:12.

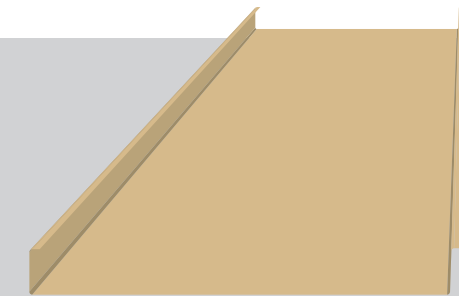

**COVERAGES:** 11", 16 5/8" & 19" | **GAUGE(S):** 26, 24 & 22

**DIM.** 

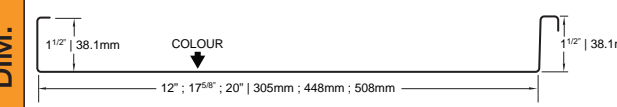

**1 1/2" MECHANICAL LOCK** roofing

**DESCRIPTION**

Also referred to as an SSR panel, 1 1/2" MECHANICAL LOCK is a hand crimped, mechanically seamed profile available with a plain, striated, or pencil rib finish. Utilizing a fixed or floating clip system with a 1 1/2" high rib for low slope applications, offers an alternative that will still provide an aesthetically pleasing finish and quality peace of mind protection for your roof. Slopes down to 1 1/2:12.

**COVERAGES:** 12", 17 5/8" & 20" | **GAUGE(S):** 26, 24 & 22

**DIM.** 

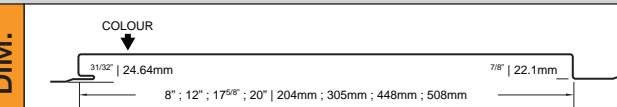

**WS SERIES** cladding

**DESCRIPTION**

Able to provide a smooth wall finish, for both vertical and horizontal applications, the WS SERIES is a hidden fastener panel available in a number of coverages, thicknesses, and is available in lengths from 3' upwards. The WS SERIES can also be used as a soffit, is available with a flat pan, a V Groove, perforated or combination of both.

**COVERAGES:** 8", 12", 17 5/8", 20" | **GAUGE(S):** 24 & 22

**DIM.** 

### Quality and Selection: The Cornerstones for Better Buildings

For almost 40 years, WESTMAN STEEL INDUSTRIES has been a leading Canadian manufacturer of innovative, premium-quality steel product solutions and services for Agricultural, Commercial and Residential applications. As a single-source supplier, WESTMAN's unyielding commitment to providing a wider range of extraordinary building products – durable steel panels in a variety of distinct profiles for roofing and cladding, doors and all required accessories – makes it easier for customers to design and construct highly efficient, distinctive buildings that easily meet or exceed their needs, both in form and function.

### More Profile Choices Mean WESTMAN Offers Better Steel Solutions

Whether for Agricultural, Commercial, or Residential building projects, our extensive line of 18 premium steel cladding profiles for wall, roof and wall applications enables our customers to turn their creative visions into reality.

Ranging from traditional to contemporary, WESTMAN STEEL panels offer a wide variety of profile styles for an array of applications. Profiles are available in a palette of 30+ designer colours to perfectly customize and complement the aesthetics of any building project.

### We Build It Stronger to Last Longer

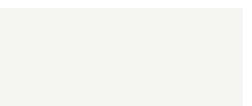

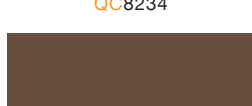

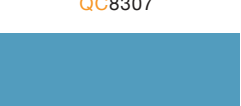

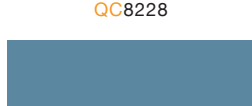

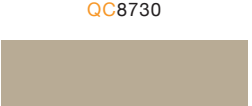

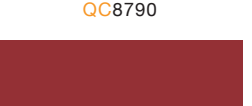

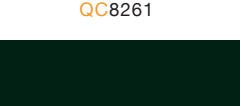

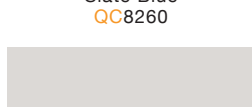

WESTMAN STEEL roofing and cladding panels are manufactured from high tensile, Galvalume Plus™ or pre-painted Galvalume™ substrate, which is 60% stronger than other panels on the market. Moreover, their extraordinary strength and longevity are protected by advanced coatings and factory applied, baked-on paint, which combine to offer unrivaled architectural beauty, along with the longest life cycles available – all covered by a 40-year limited warranty.\*

Forget cookie-cutter options. Fire up your imagination and make your own bold STATEMENT IN STEEL™ with superior building products from WESTMAN.

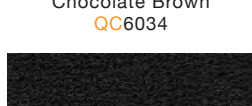

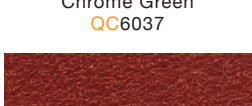

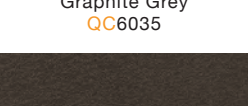

**AVAILABLE COLOURS**
